Aseptix UltraSan® Ultra Rapid Wipes

Aseptix UltraSan Ultra Rapid® wipes are cleaner disinfectant wipes bactericidal, fungicidal, virucidal and mycobactericidal efficacy in short contact times. Proven by independent laboratories according European Norms.

Aseptix UltraSan Ultra Rapid® are Hi-speed H₂O₂™ based, alcohol and quat free, and have a broad material compatibility.

The wipes are made of a very high quality wipe tissue, ensuring easy use, compliance and economics in use.

**KEY PRODUCT CHARACTERISTICS**

- Wide range of effectiveness  
  - bactericidal up to mycobactericidal  
  - slow evaporation drives compliance
- Short contact times  
  - faster than prescribed in European norms
- Convenient and fast to use  
  - disinfect & clean in one step
- Based on Hi-speed H₂O₂™  
  - no active residue  
  - degrades to water and oxygen
- 100% Alcohol FREE  
  - wide material compatibility
- Economic in use  
  - due to high liquid load and tissue quality

**Instructions for Use**

1. Remove any heavy soil.
2. Wipe surface and leave to dry. Ensure the surface remains wet during the required contact time (see efficacy).
3. Close lid after use.

**Application**

Developed for daily use on surfaces such as walls, ceilings, tables, chairs, phones, keyboards, displays, grips and door handles, tiled surfaces, outside and inside of toilet bowls, urinals, showers, bathtubs, etc. Suitable for use in healthcare facilities such as clinics, hospitals, medical practices, dental practices and nursing homes on non medical device surfaces. For disinfecting medical devices, please use our SteriMax line.

**Microbiological efficacy**

The UltraSan Ultra Rapid Wipes have been tested by independent laboratories according the European Norms in disinfection. The wipes have shown efficacy on the following micro-organisms:

Safety Reminder

Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Do not ingest. If swallowed, seek medical advice immediately and show this container or label. Keep away from heat sources and out of direct sunlight. Store between +4°C and +30°C. To assure safety use only for the intended purpose as directed. Do not use on marble, copper, brass or other surfaces sensitive to oxidative agents. Not to be used as topical disinfectant. Do not reuse container for other purposes. Based on biodegradable ingredients.

Before use, read the additional information in the Product Data Sheet and MSDS. The label contains directions for use, and both the label and MSDS contain hazard warnings, precautionary statements and first aid procedures. MSDS’s are available online via info@aseptix.com, www.aseptix.com or by calling +31 (0)88 ASEPTIX (+31 (0)88 2737849).
